

Project Name: The Weipers Centre for Equine Welfare,

Garscube Estate, Glasgow

Client: University of Glasgow

Services Value: £510,000\*

Taylor and Fraser

Case Studies

*The Weipers Centre for Equine Welfare aims to provide referring veterinary surgeons and their clients with an outstanding service. This includes the highest standards of veterinary care, the most advanced diagnostic, therapeutic and surgical techniques and excellent communication between referring veterinary surgeons and the Centre.*

The Mechanical Services installation comprised:

- *Upgrading of existing gas fired LTHW boiler plant serving radiators and coils within air handling units*
- *Air handling units providing supply and extract ventilation to operating theatres, offices and administration areas with run round heat recovery coils*
- *Upgrading of existing water services to suit new facility*
- *Full BMS to provide integrated control of the mechanical services*

- Architect: Building Design Partnership
- Consulting Engineer: Pick Everard
- Quantity Surveyor: Armour and Partners
- Main Contractor: Melville Dundas
